ETL & Data Warehousing

EDUCATION

MBA
University of Michigan
1992 – 1995

MASTER OF ARCHITECTURE
University of Michigan
1992 – 1995

BACHELOR'S DEGREE
Lawrence Tech. University
1992

PROFILE

I'm a Business Intelligence leader with over 12 years of experience transforming data into actionable insights and building high-performing analytics teams.

I specialize in Microsoft's Power Platform (Power BI, Power Apps, Power Automate), Microsoft Fabric (Data Flows, Pipelines, Spark Notebooks, Lakehouses), Azure cloud services, and REST API integrations.

My approach to dashboard design is rooted in data storytelling—I believe in simplicity, intentional use of color, hierarchical layout, and intuitive user interaction to make data not just accessible, but meaningful.

Beyond the tech, I'm passionate about team development. I introduced Power Platform tools to my team and led a structured upskilling initiative to elevate their capabilities, drive innovation, and align their growth with business goals.

PROFESSIONAL EXPERIENCE

BUSINESS INTELLIGENCE ARCHITECT
CBRE, Inc. | 2018 – 2025

Managed and mentored a cross-functional team of BI professionals, including solutions developers, Power BI dashboard designers, and database managers, fostering a high-performance, collaborative culture.

- Architected and deployed a middleware integration platform using Azure Functions, REST APIs, and webhooks, enabling real-time data exchange between SaaS platforms with over 1.8 million automated triggers in a 12-month period.
- Built scalable ETL pipelines using Azure Data Factory, Power Automate and Azure Data Storage, feeding into a centralized Azure SQL Server data warehouse.
- 7+ years' experience with Power Automate flows and Power Apps, having led the development and ongoing support of dozens of mobile applications and many hundreds of flows.
- Developed and maintained 50+ Power BI and Tableau dashboards and 200+ Power BI Paginated Reports.

TECHNICAL SOLUTIONS LEAD
CBRE, Inc. | 2015 - 2018

- Developed custom applications using Microsoft Access, SharePoint, and VBA, integrating Excel, Outlook, and Access to automate workflows and reduce manual effort.
- Created centralized reporting systems and dashboards to track program performance, timelines, and compliance metrics.
- Served as the de facto technical lead, building and maintaining internal tools to support project tracking, reporting, and communication.
- Supported the MAC-D (Move, Add, Change, Delete) and BIR (Branch Initiated Requests) programs, providing analytics and technology enhancements to streamline operations.

PROFESSIONAL EXPERIENCE (CONTINUED)

SENIOR PROJECT MANAGER
CBRE, Inc. | 2012 – 2015

Oversaw a high-volume portfolio of quick-turn, small-scale projects and led a team of project managers.

Played a key role in the transition from a legacy, paper- and email-based system to a modern SaaS platform, significantly improving the team's ability to manage high-volume work efficiently. Trained employees, clients, and vendors on the new technology and quickly became a liaison to the SaaS development team, contributing to the enhancement of reporting capabilities and refinement of custom features.

PROJECT MANAGER
Salzeider, Inc. | 2007 - 2012

Managed all aspects of commercial construction projects, with a focus on quality delivery, client satisfaction, and operational efficiency, including project budgets, cost tracking, and financial reporting to ensure profitability and transparency.

RELATED EXPERIENCE

Member of Microsoft's Power Customer Advisory Team, an invitation-only group of Power Platform super-users who are asked to provide feedback on unreleased features and updates. I was invited to present at a recent Microsoft Business Applications Summit annual conference, demonstrating my use of automation tools used for process improvement.

Volunteered my data-analytical skills to a local food pantry, creating dashboards used to help understand their client dataset. I revealed trends over time, showing the changing needs of clients by household income and geography

PERSONAL INSPIRATION

The following are key mentors who have significantly shaped my career aspirations and professional development

The writings of Nate Silver, statistician, author and founder of FiveThirtyEight enlightened me to the power of storytelling through data visualization.

The writings of Richard Thaler, Nobel laureate and one of the founders of behavioral economics, significantly shaped my perspective on how to design and implement effective solutions for audiences whom I shall never meet.

John Chi, Certified Six Sigma Black Belt and author of *Sometimes the Juice is Just Not Worth the Squeeze*, changed the trajectory of my career with his mentorship and inspirational guidance.
